PROFILE

IT transformation leader with more than thirty years of experience in the private and public sectors. Today I advise organizations on AI. As a Forward Deployed Engineer (FDE), I also build together with the client. I do this under my own brand, AI Advisory by Fender ICT.

My background is program management. I translate strategic objectives into a multi-year roadmap, a budget and a team that knows what to do. Working as an FDE asks for more. I know the rules for security and privacy, and I speak the language of the IT department. I work out the business case and involve right from the start the people who will eventually use the solution.

WHAT I BUILT WITH AI

2025 – present	**Personal AI operating system** · My own AI working environment, which I built and use every day.
Oct 2026 – present	**Customer portal and back office for Puur Reizen** · A new portal for a travel agency, under construction and not yet in use. It brings customers, trips, documents and invoices together in one place.
Jul 2026	**Resource Capacity Planner** · One shared, live view of which teams are stretched and which are not.
Apr 2026	**Automated NIS-2 and CyberFundamentals evidence factory** · Compliance evidence for NIS-2 and the CCB's CyberFundamentals, collected automatically.

EXPERIENCE

Oct 2026 – present

AI Advisory by Fender ICT

Founder · AI Advisor & Forward Deployed Engineer

- AI advice: together with management, I look at where AI fits, where it does not and what it may do. I also check how it stays within the rules for security, privacy and audit.
- First client: Puur Reizen. Set up a shared AI workspace in ChatGPT Business together with the team, as a Forward Deployed Engineer. It has several projects and useful shared skills.

Mar 2021 – Sep 2026

Smals

Program Manager · Assistant IT Director

- Ran **three strategic programs at once**: public cloud, cybersecurity and emerging technologies, reporting to senior management through recurring steering committees.
- Turned regulation (NIS-2, CyberFundamentals, ISO 27001) and technical risk into priorities, budgets and roadmaps that management could decide on.
- Helped set up the **Public Cloud Center of Excellence** for the public social security institutions (OISZ) and co-wrote its strategic principles.

Nov 2018 – Feb 2021

Burger Brands Belgium
Head of IT BeLux

- **€266K** saved in 2019 on an annual IT operating budget of €1.5M.
- **15%** higher franchisee satisfaction with IT, as measured in a survey.
- Organized the IT team of eight into three cells: operations, support and projects.

May 2018 – Oct 2018

Belfius
Project Manager Office 365

- Got the National Bank of Belgium, Microsoft and internal functions (legal, security, non-financial risk, compliance, data protection, contracts and audit) aligned.
- Guided the program through the internal and regulatory advisory process on outsourcing, including the materiality assessment, Cloud Risk Assessment and DPIA.

Nov 2015 – Apr 2018

Getronics BeLux
Project Manager Managed Services

- Migrated **more than 500 Argenta branches** and several partners to a new DMZ, together with other suppliers. Any failure meant branch downtime. Delivered on time, to specification and within budget.
- Led an end-to-end insourcing for Argenx: infrastructure (vBlock, Office 365, SIP trunk, MPLS) and managed services (service desk, field services, monitoring).
- **ISO 27001** and **ISAE 3402** (type I and II) certification for Getronics Belgium and Luxembourg, achieved **in ten months**.

Oct 2014 – Oct 2015

Deutsche Bank Belgium
Project Manager Application Services

- Led the release and environment management streams in Vittoria, the European Online Banking program of **over €15M**, built on ACI, Backbase and Alfresco. Also acted as product owner (Scrum).
- Steered several streams in the Essential Maintenance program (€4.4M), largely to remediate group audit findings.

Feb 2011 – Sep 2014

AXA Technology Services Belgium
Program Manager · Project Manager

- Led Nostradamus (RMPS2) for three years, a transformation program of **over 2,000 person-days** for AXA Group Solutions in France.
- Delivered a private cloud that became **the benchmark for all risk modelling applications** across the AXA group.
- Wrote the business case with three scenarios (private, hybrid and public cloud). This positioned AXA Tech in direct competition with Amazon AWS and Microsoft Azure, on price, service and expertise.
